WORK EXPERIENCE

Northern Commerce   **London, ON, CA**
Drupal Developer   *2022/01/05 – present*
- Build and maintain custom Drupal modules to meet and exceed clients' business requirements with secure, testable and clean codes.
- Contribute and conceptualize high-level design ideas to build custom web applications with Drupal as a framework. Integrate external web services, 3rd-party APIs and JS libraries into Drupal as needed.
- Be familiar with development workflows such as command line interfaces, git/gitlab, Docker, Dev/Stage/Prod environments. Be experienced in agency environment.
- Practice Agile methodologies, participate in internal and client meetings to provide technical insights and propose solutions to help navigate project in the right direction, helping company save up to 10% budget on almost all projects.
- Mentor and lead junior developers to get up to speed and be productive asap.
- Upgrade Drupal 8 to Drupal 9. Be comfortable with working in legacy code/system; Migrate older Drupal applications (6/7) and other sources to Drupal 9.
- Acquire industry-standard Acquia Drupal 9 Developer Certificate.

Digital Echidna (now merged into Northern Commerce)   **London, ON, CA**
Drupal Developer Contract & Part-time position   *2020/01/07 – 2021/12/25*
- My primary duties are brainstorming and writing custom modules (functional piece of PHP code in Drupal), debugging and maintaining legacy codebases, working in tandem with my team on daily basis to build in-house projects and ad-hoc works in client projects.

HIGHLIGHTS

I have been actively and independently contributing to enterprise-level Drupal sites such as Napoleon Grills, Mohawk College, Special Olympics Canada, Whatcom Community College, Albany Law School, York Region Public Site, St Joseph's Health Care London, Kaufman Hall, Investment Industry Regulatory Organization of Canada (IIROC), etc..
